## SUBJECT INDEX

Age
  effect of on immune responses, 403
Ageing
  immunoregulatory T cells in, 148
Antibodies
  association of antinuclear and antinucleolar types in PSS, 43
  production of after antigen inhalation or ingestion, 91
  production of in uremic rats, 111
  secretion of and presence of in serum 1 year after salmonella poisoning, 551
Antibody production
  kinetics of, 491
Antibody response
  to pneumococcal vaccine in Down's syndrome, 485
Antibody-secreting cells
  *E. coli*-specific type in human intestine, 469
Anti-C1q column
  purification of IC with, 705
Antigen–antibody complexes
  in onchocerciasis, 17
Antigen-specific suppression
  in uremic rats, 111
Antiglobulin activity
  in immune complexes in Maloney sarcoma, 70
Anti-idiotypic antibodies
  effectiveness as immunoregulatory probes, 458
Asbestos
  depression of lymphocyte mitogen response by, 602
Asparaginases
  immunological effects of in mice, 273
Autoantibodies
  segregation of in hepatitis, 527
Autoimmune liver disease
  immunological reactions to LSP in, 505
Autoimmune thyroiditis
  autoantibody response to thyroglobulin in, 519
  effect of testosterone on development of, 367

B cells
  defective function of in SLE, 513
B lymphocytes
  subset patterns in glomerulonephritis, 201
  T lymphocyte regulation of differention of, effect of drugs upon, 218
Behçet's syndrome
  immune functions in, 121
Bovine serum albumin
  production of antibodies to in uremic rats, 111

C1q
  interaction with IC, 705
C1q deficiency
  in a DLE patient, 353
C3 receptors
  present on dendritic reticulum cells of lymphoid tissue, 348
C3d
  correlation between concentration of and RA activity, 747
C6 deficiency
  combined with factor VIII deficiency, 733
C-reactive protein
  correlation between concentration of and RA activity, 747
Cellular cytotoxicity

influence of viral replication cycle on, 589
inhibition of by glucocorticoids, 641
reversal of IC inhibition of, 685
target cell lysis by, 641
Cellular immunity
in typhoid fever and TAB vaccinated subjects, 389
Chromosomes
immune functions in patients with deletions of, 179
Cimetidine
effect on T lymphocytes in ulcer patients, 186
Circulating immune complexes
complement fixing ability of, 726
physiological aspects of in normal population, 693
Clofazimine
action of on immune complex disposal, 268
action of on lysosomal enzyme levels, 261
Complement fixing
by circulating immune complexes, 726
by rheumatoid factors, 556
Complement receptors
interaction with immune complexes in serum and CSF, 25
kinetics of interaction of with IC, 715
Cyclophosphamide
effect of on glomerular permeability, 79
Cytomegalovirus
IgA specific for in kidney transplant patients, 321

Diabetes mellitus
glycaemic control and suppressor cell activity in, 189
islet cell antibody negative form of, 213
Discoid lupus erythematosus
complete C1q deficiency in, 353
Down's syndrome
antibody response to pneumococcal vaccine in, 485

Eosinophils
characterization of two cell fractions in parasitic diseases, 249
Erythrocytes
receptors for on lymphocytes, 574

Factor VIII deficiency
combined with C6 deficiency, 733

Genetic control
of susceptibility for IC type disease, 700
Glomerulonephritis
B lymphocyte subset patterns in, 201
Glomerulus
effect of cyclophosphamide on the permeability of, 79
Glucocorticoids
inhibition of cell cytotoxicity by, 641
Glycaemic control
and suppressor cell activity in diabetes mellitus, 189

H-$2^b$
biochemical and functional properties, 561
HLA antigens
associated with diabetes mellitus, 213
HLA-DR
discrimination of cells positive for in the synovial lining, 381

Hepatic cirrhosis
decreased suppressor T cell activity in, 625
Hepatitis
segregation of autoantibodies in, 527
*Herpes simplex*
evaluation of immunity to, 307
Hodgkin's disease
spleen lymphocyte populations in, 300
Humoral immunity
in typhoid fever and TAB vaccinated subjects, 389
Hydrocortisone
reversal of immunoglobulin synthesis suppression by, 244

IgA
analysis of circulating forms in IgA prephropathy, 61
receptors for on thymus cells in myasthenia gravis, 129
search for enriched source of polymeric forms in humans, 85
virus-specific forms in kidney transplant patients, 321
IgE
comparison of methods for estimation of serum content, 417
IgE-dependent cytotoxicity
nature of effector cells, 477
IgG
analysis of, from MS brain, 102
IgG paraprotein
idiotypic determinants of, 1
Immune complex disease
induced by $HgCl_2$, 700
Immune complexes
circulating in Kra and Rhesus monkeys, 315
correlation between concentration of and RA activity, 747
detection and partial characterization, 339
detection of in IgA nephropathy, 61
effect of Clofazimine on disposal of, 268
interaction with C1q, 705
interaction with complement receptors in serum and CSF, 25
kinetics of interaction of with complement receptors, 715
modification of in interaction with red cells, 715
reappraisal of monoclonal rheumatoid factor test for circulating forms, 52
solubilization of in SLE, 37
with antiglobulin activity in Maloney sarcoma, 70
Immune function
in Behçet's syndrome, 121
in patients with chromosome deletions, 179
Immune reactions
diagnostic relevance of in viral myocarditis, 533
Immune responses
effect of anaesthetics on after prostate resection, 611
effect of peptidoglycans on, 739
in healthy elderly population, 403
in lateral sclerosis patients, 137
to SRBC, effect of oestriol on, 239
Immunity
to *Herpes simplex* in mice, evaluation of, 307
Immunodeficiency disease

monoclonal immunoglobulin-secreting lymphoma in, 666
Immunoglobulin production
after marrow transplantation, 675
Immunoglobulin synthesis
suppression of, reversed by hydrocortisone, 244
Influenza immunization
kinetics of antibody production following, 491
Insulitis
inhibition of streptozotocin-induced form by perussis vaccine, 375
Interferon
defect in release associated with deficient NK cell activity, 205
Intestine
presence of *E. coli* antibody-secreting cells in, 469

Kra monkeys
circulating immune complexes in, 315

Lateral sclerosis
cell-mediated immune responses in, 137
Leishmaniasis infection
immunity to and significance of lymphatic drainage, 396
Leprosy
defective generation of cytotoxic T cells in, 633
Leucocytes
killing of *T. theileri* by, 289
Leukaemia cells
monoclonal antibodies specific for, 655
*Litomosoides carinii*
nature of effector cells in IgE-dependent cytotoxicity, 477
Liver-specific lipoprotein
immunological reactions to in rabbits, 505
Lupus patients
pseudoplaque formation by cytophilic immunoglobulins in, 499
Lymphatic drainage
significance in immunity to leishmaniasis, 396
Lymphocytes
depression of mitogen response of by asbestos, 602
derived from thyroid produce thyroid-specific antibodies, 196
induction of T-cell markers in by FTS, 423
NK function of neonatal types, 649
nature of in hepatic infiltrates in splenomegaly, 546
populations of in Hodgkin's disease, 300
receptors for allogenic and non-allogenic erythrocytes on, 574
suppression of pre-B cells by, 437
Lymphoid tissue
C3 receptors present in, 348
Lysosomal enzymes
action of Clofazimine on levels of, 261

Marrow transplantation
immunoglobulin production after, 675
Mitogenesis
receptor-mediated regulation of, 171
Monoclonal antibodies
characterization of immunoregulatory T cells by, 118
identification of immunoregulatory T cells in scleroderma patients, 443
immunoregulatory T cell characterization by, 148
specific for leukaemia cells, 655
suppressor T cell subsets defined by, 481
to idiotypic determinants of IgG, paraprotein, 1
Monocytes
peanut agglutinin as a marker for, 329
Motor end-plate disease
impaired T lymphocyte functions in, 429
Multiple sclerosis
analysis of IgG from brain of patients with, 102
Myasthenia gravis
IgA receptors on thymus cells during, 129
Myocarditis
diagnostic relevance of immune reactions in, 533

Natural killing
function of neonatal lymphocytes, 649
influence of viral replication cycle or, 489
NK cells
deficient activity associated with defect in interferon release, 205

Oestriol
effect of or immune response to SRBC, 239
Onchocerciasis
circulating antigen–antibody complexes in, 17

Parasitic diseases
two eosinophil fractions during, 249
Peanut agglutinin
marker for normal and leukaemic monocytes, 329
Peptidoglycans
effect on immune response, 739
Phagocytes
increase plasminogen activator secretion during bowel disease, 256
Plasmapheresis
effect of on T anb B lymphocyte functions in SLE, 449
Plasminogen activator
increased secretion during bowel disease, 256
Pre-B cells
suppression of by thyoma patient lymphocytes, 437
Pregnancy
characterization of immunoregulatory T cells during, 118
identification of trophoblast membrane antigens during, 279
Progressive rubella pancephalitis
immunochemical features of, 359
Progressive systemic sclerosis
association of antinuclear and antinucleolar antibodies in, 43
Prostate resection
effect of anaesthetics or immune responses after, 611
Pseudoplaques
formation of by cytophilic immunoglobulins in lupus patients, 499

Rhesus monkeys
circulating immune complexes in, 315
Rhematoid arthritis
correlation between disease activity and lymphocyte reactions, 155

Rheumatoid factor
complement fixing properties of in RA and other diseases, 556
correlation between concentration of and RA activity, 747
Rheumatoid factor test
a reappraisal of, 52

SRBC
modulation of immune response against, 239
Salmonella gastroenteritis
antibodies 1 year after, 551
Scleroderma
identification of T cell subpopulations in, 443
Serum lipoproteins
immune complex-like activity of in SLE, 8
induction of T-cell markers in lymphocytes by, 423
Splenomegaly syndrome
nature of hepatic lymphocytic infiltrates in, 546
Sulphasalazine
effect of on suppressor T cell activity in Crohn's disease, 619
Suppressor cells
activity of and glycaemic control in diabetes mellitus, 189
Systemic lupus erythematosus
abnormal serum lipoproteins in, 8
correlation between disease activity and lymphocyte reactions, 155
defective B cell function in, 513
effect of plasmapheresis on T and B lymphocyte functions in, 449
solubilization of immune complexes in, 37

T cells
characterization immunoregulatory types during pregnancy, 118
Con A-induced suppressor subsets defined monoclonal antibodies, 581
decreased suppressor activity of in hepatic cirrhosis, 625
defective cytotoxic subset generation in leprosy, 633
effect of sulphasalazine on suppressor activity of, 619
suppressor activity in Crohn's disease, 619
T-cell growth factor
effect on viral inhibition of lymphocyte mitogenesis, 163
Testosterone
effect of on development of autoimmune thyroiditis, 367
Thyroglobulin
autoantibody response to in autoimmune thyroiditis, 519
Thyroiditis
influence of testosterone on development of autoimmune type, 367
T lymphocytes
characterization of immunoregulatory forms during ageing by monoclonal antibodies, 148
impaired functions in motor end-plate disease, 429
in cimetidine treated ulcer patients, 186
pharmacological modification of cell surface characteristics of, 231
regulation of B lymphocyte differentiation by, pharmacological modification of, 218
*Trypanosoma cruzi*
opsonization of by serum, 754
*Trypanosoma theileri*
killing of by leucocytes, 289
Thyroid antibodies
produced by thyroid-derived lymphocytes, 196

Viral purification
effect on viral inhibition of lymphocyte mitogenesis, 163

Yeast opsonization
in newborn and relationship to parental atopy, 411
